## INCENTIVE TRIPS

### another way of motivation

---

Not even a good idea guarantees a good results. Therefore, we come up with original ideas! Only those provide you with an edge over others and in conjunction with attention to every detail bring definite success. Do you wish to ski in the Canadian Whistler? Are you attracted by the unspoiled Africa in the Ngorongoro reservation? Do you want to give sport Ferrari wild horses a good chase in the Italian Dolomites? Adrenalin or wellness, culture or sport? We will tailor a programme considering the personality and character of the customer – for employees, management or business partners. We will select the most suitable destination, prepare a presentation and design a programme. After the event we will present transparent balance sheets, photography documentation and carry out the evaluation. Just one decision, one meeting will suffice and we will take care of the rest.
